

Grant Committee

The Grant Committee works to select, research, and write grants that can support the ministry and mission of Holy Communion. The Grant Committee gathered for the first time in October of 2019. The Committee thought through vestry's stated goals for Holy Communion and which of them best align with potential sources of funding. The members determined that Grace Gathering: a worship service celebrating diverse abilities and sustainability were two areas for further work. The Committee is providing research and editorial feedback to the Rev. Laurie Anzilotti as she submits a United Thanks Offering grant to the National Church in February. It also has explored sustainability grants through Ameren UE.
